

APOGEE / DESIGO™ PX-HMI HMI-Touch Panel

LUI-Touch

Description

LUI-Touch touch panel is an HMI with high performance and programmable functions to answer the needs for most of the BMS BACnet IP and MS/TP automation stations and systems.

With colorful high resolution screen, there is no compromise with its' response speed. The state-of-the-art industrial standard design makes LUI-Touch to easily handle harsh environments under long and steady operation time.

Features

- Supports SIEMENS APOGEE and DESIGO BACnet IP and MS/TP platform, also could be connection with BACnet LON via DESIGO PXG80-N BACnet Router.
- One million touch operated guaranteed.
- Multilingual supported, such as English, French, Germany, Italian, Espaniol, Traditional/Simplified Chinese, Japanese, Korean....etc
- Macro Programme:
 - Easy macro syntax genie supports you to design your control logic between HMI and communication device.
 - More function types of macro definition for startup, main, event, time, point on/off and page on/off to selection
- Alarm:
 - Provide alarm definition in LUI-Touch that include history alarms, on-line alarms and PopUp alarm message.
 - Totally 8 level alarm color defined.
 - Totally 16 zone alarm define and spearted for digital and analog alarm, analog alarm can be set of Hi/Hi-Hi and Low/Low-Low level indication.
 - Standard alarm list page for on-line and history.
- Security:
 - Total of 8 level password define to operating priority.
 - The viewable, controllable of priority setup for each objects

Operating Message Display

DATE	TIME	EVENT Message
141210	02:04	Graphic display operation
141210	02:04	AS11 Manual control (CS)
141210	02:04	AS12 Manual control (CSP)
141210	02:04	AS13 Manual control (CSP)
141210	02:04	Graphic display operation
141210	02:03	Graphic display operation
141210	02:03	Alarm indication operation
141210	02:03	Graphic display operation
141210	02:03	Fan alarm indication test (CSP)
141210	02:03	Fan alarm ACK on touch page
141210	02:03	Clear alarm indication test (CS)
141210	02:03	Clear alarm operation
141210	02:03	AS11 Manual control (CS)

definition, such as button, info-block, graphic page, trend chart page...etc.

- Auto logoff, login setup and screensaver enable.

- 100% quality test and industrial standard coating cases let LUI-Touch look reliable and nice.
- Adopts 32 bits high function; high reliability and fan- less ARM CPU.
- Equipped with genuine 65535 true colors or 256 colors, high brightness TFT modules.
- Provides RS232/422/485 communication ports available in standard models.
- The standard pre-set 4 to 128MB backup flash memory, which can expand up to 2GB Micro SD or USB Flash disk, allows user to store alarms, events and historical data.
- Supports multi - languages, Windows build- in Fonts, BMP and JPG graphics and GIF animations.
- Provides transparent communication for designers to save their program adjustment time.
- The extension bus extends various customized devices, such as motion control, temperature control, communication module and I/O module...etc.
- High speed Ethernet and USB host port supports runtime database upload and download remote communication.
- Support MODBUS TCP/RTU/ASCII..communcion protocol.
- Schedule:
 - Include standardize schedule module.
 - Total of 48 Schedule objects including normal and specical day.
 - Support customer difined.
 - Support group Ucc/Unocc via Macro programme.
- FTP Server supports, could be down/up load from remote PC station.
- Standard message indication. Show all of operatng recode on panel.

Applications:

Description for model 4.3", 7.0", 8.0", 10.0" and 12.1" type:

- Via Ethernet port for connecting one to four BACnet /IP Automation Controller.
- Via serial port for connecting one to four BACnet MS/TP DDC device.
- Only support BACnet standard object AI, AO, AV, BI, BO, BV, MI, MO, MV object type.
- Support Modbus RTU and TCP protocol connection.
- Customize graphic design..

Description for model 5.7" and 3.5" type:

- Via Ethernet port for connecting one BACnet /IP Automation Controller.
- Via serial port for connecting one BACnet MS/TP DDC device.
- Only support BACnet standard object AI, AO, AV, BI, BO, BV, MI, MO, MV object type.
- Support Modbus RTU and TCP protocol connection.
- Customize graphic design.. °
